Election/Restrictions

1. Applicant's election of Group I in the reply filed on 6/15/05 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 31-33 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 6/15/05.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 6, 7, 13, 14, 20, 21, 28, 29, 30, and 34 are rejected under 35 U.S.C. 102(b) as being anticipated by Kendall (6601321).

Kendall shows a shoe with a midsole insert comprising a heel, midfoot, and forefoot grid portions (for example see figure 10) and the grid portions having different materials with different hardnesses (see column 11 line 60- column 12 line 58), and an upper attached/sewn to the midsole insert (column 15 line 14) as claimed.

5. Claims 1, 2, and 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Lin (4594799).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 3-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kendall.

Kendall shows a shoe and midsole insert substantially as claimed except for the exact stitching and the use of a peripheral groove/reduced thickness for the stitches. It is well known and conventional to use zigzag stitching and/or to provide a peripheral groove/reduced thickness in sole elements to facilitate stitching. It would have been obvious to use zigzag stitches and to provide a groove/reduced thickness as is well known and conventional in the art of footwear in the shoe of Kendall to provide a secure attachment and to protect the stitching.

Allowable Subject Matter

8. Claims 8-12, 15-19, and 22-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
